

Why Rescue Dogs From Romania?

We understand there are many dogs in need in the UK, and we fully support the amazing rescues already working tirelessly to help them.

Our focus is on Romanian dogs because so many of them have little to no help at all. Many are left suffering on the streets or in overcrowded kill shelters with very few people fighting for them.

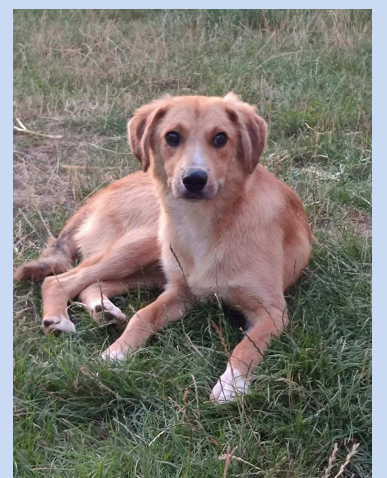

By rescuing and rehoming Romanian dogs in the UK, we are giving a voice and a future to animals who may otherwise never get the chance to survive.

Compassion is not limited by borders - every dog deserves safety, love, and the opportunity of a better life.

Huey was so weak from being starved in the kill shelter, he couldn't even stand.

We got there just in time and he is now happy and healthy in the UK
